

CVS Health® launches free, rapid COVID-19 test

Results available in just 30 minutes or less

The site is located in
the parking lot of the

We are pleased to share that our parent company, CVS Health®, has announced the opening of a new site offering drive-through, on-the-spot testing using the new Abbott ID NOW™ COVID-19 test.

Testing will be available to individuals who meet criteria established by the Centers for Disease Control and Prevention ([CDC.gov](https://www.cdc.gov)), in addition to state residency and age guidelines.

Patients will need to **pre-register in advance online at [CVS.com](https://www.cvs.com)** in order to schedule a same-day time slot for testing. A physician referral is not required. Please be aware that the schedule fills up quickly, so there may be delays in getting an appointment. Results are available after a wait of 15 to 30 minutes.

The new site joins others being launched by CVS Health throughout the country in conjunction with federal and state officials. It allows for up to 1,000 patients per day to be tested. Testing will be overseen by licensed MinuteClinic® health care providers. No testing will take place at CVS Pharmacy® stores or MinuteClinic locations.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).

Aetna, CVS Pharmacy® and MinuteClinic, LLC (which either operates or provides certain management support services to MinuteClinic-branded walk-in clinics) are part of the CVS Health® family of companies.

ID NOW™ COVID-19 test is the property of Abbott.
